DEATH VALLEY '49ers EDUCATIONAL PROGRAMS

The Death Valley `49ers have provided scholarship assistance to qualified graduates of the Death Valley High School District since 1976 and during that time 36 scholarships have been awarded.

No permanent Death Valley resident had completed college until this program was initiated.

Now college entry is a goal for many students and degrees have been received in a wide assortment of fields.

Your support will enable us to continue awarding scholarships to those Death Valley region students deserving a college education.

Enable college students to earn credits by working at Death Valley National Park as interns.

Facilitate middle school students attending educational programs within Death Valley National Park.
